Perfect for those just starting to read

The Orange Level (Level 0) provides books with simple texts for students who are not ready to start the Red Level. There are highly illustrated word books for blending and segmenting practice, as well as general fiction titles for hesitant readers.

Little Word Books

Perfect for developing blending fluency

These Little Word Books provide a gradual and structured start for students who are just beginning to read. They give students the opportunity to apply their letter-sound knowledge and improve their ability to blend words fluently.

The words for blending cover the 42 letter sounds across fourteen books. There are two books for each letter-sound group, which have decodable words that only use the sounds for that group and below.

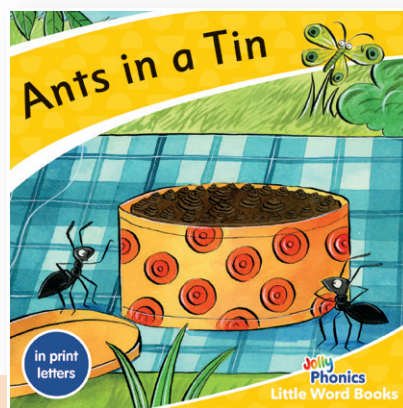

The beautifully illustrated pages can also be used to stimulate discussion and build vocabulary.

Read and See

Ideal for blending, segmenting, and vocabulary building

The Read and See books contain regular words that can be read by saying the sounds and blending them together. Students read the word and then turn the page to see the picture and find out if they are correct. They can use the sound dots under the picture to help them segment the word, pointing to each dot as they say the sound.
